**ECLIPSE MARKETING ANNOUNCES A FULL LINE OF INTERNATIONAL MARKETING  
TOOLS FOR RESIDENTIAL AND COMMERCIAL SYSTEM INTEGRATORS LOCATED  
OUTSIDE THE UNITED STATES**

***Eclipse Marketing To Exhibit These Professionally-Designed and Cost –Effective  
Marketing Tools At ISE in Amsterdam***

**Laguna Niguel, CA: December 10, 2008** — Eclipse Marketing, a full-service marketing and public relations firm based in the United States, today announces the release of its pre-designed marketing tools converted to international standards. These marketing tools are designed for integrators to easily and cost-effectively promote their custom installation services to perspective clients and re-occurring customers. Each marketing tool is personalized for every company so that no two marketing tools look exactly alike.

Says Leslie Stevens, President of Eclipse Marketing, “System integrators throughout the world have requested our pre-designed marketing tools for their local market. We’ve converted over one hundred residential and commercial pre-designed marketing tools to international sizes. These marketing tools consist of everything from literature, to websites, newsletters, posters and more. Integrators may purchase electronic artwork that is ready for press in their local market.”

Eclipse Marketing provides Member Marketing Tools to CEDIA and INFOCOMM members. Members are entitled to special discounts on all tools ordered. In addition, the integrator’s respected association’s logo will be included in their marketing tools, further endorsing the integrator’s unique credentials.
